To Whom it May Concern:

I oppose the draft M.O.U. being proposed by the FDA. In particular I object to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies. As these prescriptions can be very difficult or impossible to obtain in many locales, this places an undue restraint on trade and can only make these prescriptions more difficult and costly to obtain.

Sincerely,
